

Instructions on Manuscript Preparation for the Book of Abstracts

(Japanese Mass Spectrometry Co.¹, Institute of Mass Spectrometry², University of Mass Spectrometry³)
I.Suzuki^{1,2}, O.H.Tanaka², T.A.Edison^{1,2,3}

Keywords: Instructions, Conference, Mass Spectrometry, Abstract, Preparation

This is the form for preparing a manuscript of your abstract submitted to the Annual Conference on Mass Spectrometry. If you have downloaded the template file in the Microsoft Word document format from the MSSJ website (URL: <http://www.mssj.jp>), you can prepare abstracts by overwriting the template. Even if you do not overwrite the template, it is strongly recommended that your manuscript be matched with the style of this form. The page margins of your word processor must be set to 25 mm.

Please prepare your manuscript within one page length of A4 sheet. Exceeding one page, only the first page will be published in the book of abstracts. Since the abstract will be printed in black-and-white pages, do not use colored figures or characters.

It may happen that the book of abstracts will be issued before the conference dates. As regards other notes not shown in this instructions, please refer to the MSSJ website at first.

Times is recommended as the English character font. The first paragraph is a title, whose character size is 12 pt. The second paragraph is author's affiliations, whose character size is 10 pt. The affiliations must be numbered with superscript notations and delimited with a comma between each affiliation, then enclosed in parentheses. The third paragraph is author's names, whose character size is 10 pt. Each name must have a superscript notation of the corresponding affiliation number, and delimited with a comma. The presenting author must be indicated by an open circle "o".

Change paragraph, then type "**Keywords:**" and indicate keywords, whose character size is 10 pt.

The character size of the main text is 10 pt. Identify references¹⁾ in the text by using superscript notations.

There are no restriction of styles of figures and tables, except they need serial numbers and titles.

Your manuscript must be submitted in the format of PDF. To ensure that the electronic version matches the print version, **all fonts used must be embedded within a PDF file.** To embed the fonts, select the Press Quality option in Adobe Acrobat. In Microsoft Word 2007 or later, select the ISO 19005-1 compliant (PDF/A) option after selecting PDF in the Save As menu. **Please keep the file size less than 3 megabyte.** After submitting your manuscript on-line, you may receive an e-mail notification, which contains instructions to check the appearance of the printed abstract. Please make sure that the appearance matches with your manuscript.
